*" As a Mother, watching my daughter's experience with Karlin Orthodontics, I am overjoyed with the entire process! EVERYONE on staff have been wonderful!  
I have recommended the practice to all of my sisters for their children as well!  
This has been a FANTASTIC experience! "*

*" My son's teeth bite was very off. He looks REALLY, REALLY good. I am very impressed with Dr. Karlin's expertise and sense of humor. His staff was very supportive of the whole process and also listened and addressed my concerns. Great job, great team! Synergy flows here!!!! We'll miss seeing you so often :-).  
Thank you! "*

" Moving from California and having to find a new orthodontic office after loving the one we left was a hard and scary thing to do. I interviewed many offices in my area but none of them felt the way Dr. Karlin's office felt. From the moment we walked in for our evaluation we were greeted by smiling faces and a warm welcome. I knew from that moment this was the place that should take care of my family for their orthodontics needs. Everything has been perfect from day one. Dr. Karlin has the best sense of humor and is amazing with kids and adults. His staff is so sweet and organized and always make you feel welcomed. They have fun contests in their office and the positive moral in their office is contagious. I highly recommend making Dr. Karlin your first and last place when looking for orthodontic care. "

" Dr. Karlin and his staff are fantastic. They connect well with kids. They made the whole process easy and as enjoyable as possible. He made himself available whenever we had an issue with my daughters braces. Her teeth look great! We will be coming back for our next daughters braces in a few years! "

*" Dr. Karlin was fantastic! I had heard horror stories from friends about braces, and expected the worst. However, aside from expected pains from the braces, the entire thing went great. It was relatively painless and Dr. Karlin was always friendly and helpful. I love my new smile, and would highly recommend this place. "*

*" Jessica's teeth were very crooked and she had a low self esteem because of them. Dr Karlin and his staff were amazing and great during her 2 1/2 years of treatment. Whenever we had issues everyone was very accommodating. Jessica's teeth are now very beautiful and a tremendous transformation. She has her self confidence back. Thank you Dr Karlin and your whole office staff. Jessica and Laura Lakeman "*

*" It was a great and easy experience. They walked me through every single thing I was supposed to do while wearing my braces. They are very friendly and helpful. They aren't like people that just fix your teeth then leave you. They are nice and actually talk to you while your doing your appointment. This orthodontist is great. "*

*" We had a GREAT experience with Dr. Karlin and his staff -- starting with first son and then second -- so for several years. Super doctor, wonderful results. Boys really clicked with him and his staff and the whole braces experience went very smoothly. Really couldn't be happier -- except for those college football discussions! :) "*
