*" We had a great experience at Karlin Orthodontics! Every visit we walked into a welcoming environment and were kept informed of the progress the teeth were making. The office was great at working us in whenever we had a problem. Everyone in the office really seems to care about each patient who walks in the door and tries to develop a relationship with them. "*

*" Dr. Karlin and entire office staff are extremely professional, knowledgeable, and kind. They all have a genuine interest in their patients orthodontic needs and personal stories. This is demonstrated through developing an excellent provider-patient relationship beginning at the first visit. Dr. Karlin is vested in insuring his patient's happiness with every aspect of their orthodontic care. "*

*" Dr. Karlin and his team of assistants are very professional, fun and make the "braces" experience a*

great one! I would recommend them to all. We have two more kiddos who will require braces and we will definitely be back! Thank you for everything! "

" What a long road. Phase one began in 2008 when Isaac didn't even fit in the chair. Comparing the old X-ray from back then with the new one today is like night and day! Isaac looks so handsome with his new "grill-free" smile. Thank you Dr. Karlin and Airin for all the wonderful and competent care throughout this long journey. The rest of the staff that you've added since the beginning have all been equally thoughtful and helpful. I'm very happy my next grandchild is scheduled to be under your care soon. I'm sure he will walk out of these doors with an equally straight and bright smile. Both of the boys definitely have something to smile about with you watching out for them! Happy days!

Thank you very sincerely,  
Connie Pazen "

*" Knowing it that we will have three kids with braces it was important to make sure we found the best orthodontist for our family. A recommendation from our pediatric dentist for our oldest child referred us to Dr. Karlin. Our son had the unfortunate inheritance of big teeth and a small mouth. Due to his teeth being crowded and no space for the new ones we had to undergo braces to help create and secure space for the emerging teeth. Our experience with Dr. Karlin has been awesome. Everyone is very professional and caring and we know our son is getting the best care. "*

*" I couldn't have asked for a better orthodontic team to help me through my long journey. Dr. Karlin really*

*knows how to work with his patients and help them to the best of his abilities. I recommend him to anyone I know who needs orthodontist work. Going to each appointment was comforting knowing I was going to Dr. Karlin because the office is a nice stress free laid back environment. I'm confident in Dr. Karlin's work and proud to be one of his patients! "*

*"Dr. Karlin and the staff here are great. They really make an effort to make getting orthodontics a good experience for kids. The experience has also been good for my husband and me - they're flexible and easy to work with on appointments, billing etc. Most importantly though is that the work they do is high quality! "*

*" My teeth are great, on the other hand Dr. Karlin has a bad taste in sports. He is over confident in his teams, because they never win, so he chooses to bag on the good teams(Detroit Red Wings) to make himself feel better.*

*-Casey Miller "*

*" Karlin Ortho is the best. They are not a massive chain and know their patients by name, remembering*

*their interests and the activities they are involved in. Dr Karlin has a great sense of humor and the staff is extroverted and fun. Office contests for the patients are fun for the kids, and we parents love the fact that there is rarely a wait for appointments. The personal care they provide and expertise in orthodontics is excellent. I would highly recommend dr Karlin and his staff to any age person who needs Ortho work. His wife, Stephanie Saide, who is a family dentist, is also excellent. "*

*" Samantha loves, Dr. Karlin. She had a great experience with her braces. She was 7 when shie got her set on and the staff was so patient with her when she was scared at times. We had a great experience and Samantha asks me weekly when she sees Dr. Karlin again! We will see him again as she will most likely need a second set of braces once all her adult teeth are in. Samantha is actually looking forward to this! Thank you for everything and we will continue to pass on Dr. Karlin's name to our friends and families.*
